

# Radom Academy of Economics

kindly invites you to participate  
in the International Scientific Conference on the topic of:

## ***COMPETENCES OF THE FUTURE – CHALLENGES OF CONTEMPORARY GENERATIONS***

**12-13 April 2024**

The aim of the International Scientific Conference **COMPETENCES OF THE FUTURE – CHALLENGES OF CONTEMPORARY GENERATIONS** is the exchange of knowledge and experience between scientists and practitioners in the field of solving economic, organizational, administrative problems as well as improving safety and psychological and pedagogical aspects in management and developing competences for the 21<sup>st</sup> century.

The dynamically changing environment forces the search for innovative solutions in the entire value chain of social sciences. Emerging challenges require extensive knowledge and extensive cooperation between entities within interdisciplinary teams.

The mission of the conference is to emphasize the importance of close correlation between theory and practice, and therefore between science and the socio-economic environment. Therefore, the thematic blocks will be moderated by representatives of both areas.
